FRONTEND DEVELOPER – building responsive & dynamic web applications

Highly motivated Frontend Developer with a strong foundation in building dynamic, highly responsive web applications. Proven experience in designing interactive user interfaces using React.js and Tailwind CSS, as well as developing data-driven analytical dashboards using Python and Power BI. Adept at transforming complex requirements into clean, maintainable code with a strong emphasis on seamless user experience, scalability, and modern web development workflows.

PROFILE SUMMARY

- Gained expertise in turning UI/UX designs into functional prototypes and interactive user interfaces using React.js and modern CSS frameworks like Tailwind.
- Proficient in implementing modern UI development principles to ensure that the client-side application serves at scale and maintains cross-device compatibility.
- Skilled in utilizing Power BI and Python to analyze datasets, process academic/performance data, and engineer interactive data visualization dashboards.
- Adept in full-stack architecture concepts, RESTful API integration, and collaborative web development workflows utilizing Git and GitHub.
- Familiar with the MERN stack ecosystem (MongoDB, Express, React, Node) and backend frameworks such as Django for building comprehensive web solutions.

CORE COMPETENCIES

- | | | |
|---------------------------|------------------------|---------------------------------|
| • HTML5, CSS3, JavaScript | • Node.js & Express.js | • Data Visualization & Power BI |
| • React.js & Tailwind CSS | • Python & Django | • Git & GitHub Version Control |
| • Responsive UI/UX Design | • MongoDB Familiarity | • Problem Solving & Analysis |

PROFESSIONAL EXPERIENCE

Disha Computer Institute, Ahmedabad Jan. 2026 – Present

Full Stack Development Intern

- Develop and maintain dynamic, responsive frontend components utilizing React.js to improve overall application performance and usability.
- Collaborate on UI/UX improvements to deliver seamless, modern, and interactive user experiences across multiple device platforms.
- Gain practical exposure to full-stack architecture, API integration, and participate actively in modern web development workflows.

Infolabz Pvt. Ltd., Ahmedabad Dec. 2025 – Jan. 2026

Jr. Data Analyst Intern

- Utilized Power BI and Python to analyze complex datasets and engineer interactive data visualization dashboards for performance tracking.
- Processed and structured academic data to generate actionable insights and structured reports for internal stakeholders.

Infolabz Pvt. Ltd., Ahmedabad Dec. 2025

Web Development Intern

- Gained hands-on experience in backend web development concepts by assisting in building components utilizing the Django framework.

PROJECTS

Personal Portfolio Web Application

Ongoing

Technologies: React.js, Tailwind CSS

- Designing and developing a fully responsive personal portfolio to showcase technical skills and project work to potential employers.
- Implementing modern UI/UX principles utilizing React functional components and Tailwind CSS utility classes for optimal loading speed and performance.

Task Management Application

Completed

Technologies: React.js, Node.js, HTML, CSS

- Developed a full-stack task management system allowing users to efficiently track, update, and organize task statuses.
- Integrated a dynamic React-based frontend with a Node.js backend architecture to ensure seamless state management and real-time data flow.

JobGate (Academic Project)

Completed

Technologies: Power BI, Data Visualization

- Engineered a comprehensive data visualization dashboard to analyze and track student placement trends across various departments.
- Processed large academic and placement datasets to identify key employment patterns, offering clear visual metrics.

EDUCATION

Monark University, Ahmedabad, Gujarat

2023 – 2026

Bachelor of Computer Applications (BCA) | CGPA: 6.90
